**CORSA® PERFORMANCE OFFERS NEW 2015 SUBARU  
IMPREZA WRX EXHAUST SYSTEM**

BEREA, Ohio – The new CORSA® Performance exhaust system for the 2015 WRX 2.0L Turbo and WRX STI 2.5L Turbo has been designed to provide improvements in sound, performance and quality over the OEM exhaust system. CORSA's patented Reflective Sound Cancellation® (RSC®) technology allows the exhaust system to dial out the low frequencies that cause drone, resulting in cleaner sound and greater performance. To complement the edgy Subaru style, the exhaust's Sport sound level is robust under acceleration and growls at idle. CORSA's non-restrictive, straight through design and a generous three-inch diameter air path produces less back pressure than the Subaru WRX stock exhaust system.

The cat-back, dual rear exit systems are available with twin 3.5-inch Pro-Series tips in a choice of polished stainless or high-gloss black. Black Pro-Series Tips use physical vapor deposition, a vacuum coating process, to create a brilliant, high-performance finish that won't chip, flake or peel and resists corrosion.

In addition to the new 2015 WRX system, CORSA also offers performance exhausts for many other Subaru models, including the 2008-2014 WRX sedan, 2011-2014 WRX Hatchback, 2011-2014 STI sedan, 2008-2014 STI Hatchback, and 2012-2014 BRZ/FRS.

“We are excited to expand our line of exhaust systems to meet the needs of Subaru enthusiasts, a very knowledgeable and passionate group of owners who are serious about making quality enhancements to their vehicles,” said Craig R. Kohrs, VP and General Manager, TMG Performance Products.

Handcrafted in the U.S. using high-quality 304L steel, CORSA exhaust systems are 50-state emissions legal and offer a limited lifetime warranty for as long as you own your Subaru. CORSA systems include all necessary hardware as well as an illustrated installation guide, and are designed to bolt on and fit right, with no cutting or welding necessary.

#### About CORSA Performance

CORSA® Performance is a leading brand of American-made premium exhaust systems and air intakes for cars, trucks and SUVs from Berea, Ohio-based TMG Performance Products. With an ISO 9001:2008-certified focus on quality, innovative engineering, and a relentless drive to deliver cutting-edge products, CORSA Performance offers some of the automotive aftermarket industry’s most advanced exhaust and air intakes.
